

Everyone belongs

Point, circle, draw or tell someone. Your choices can change.

Name: _____

Belonging means I can take part, contribute and be myself.

Walk

**Wheel /
use a
walker**

I like...

I can...

I want to try...

I can help by...

Trace or copy one word:

JOIN

Make the game work

Same shared goal. More than one way to take part.

Our game / activity: _____

Can everyone join and make a difference?

YES

CHANGE SOMETHING

NOT SURE YET

SPACE

Can we change the space?

Smooth path · reachable targets

RULES

Can we change the rules?

More time · more ways to score

EQUIPMENT

Can we change the equipment?

Larger / softer ball · lower target

TEAM

Can we contribute in different ways?

Roll · pass · plan · communicate

Our change: draw, tell or write.

Check after trying: Did everyone have a way to play?

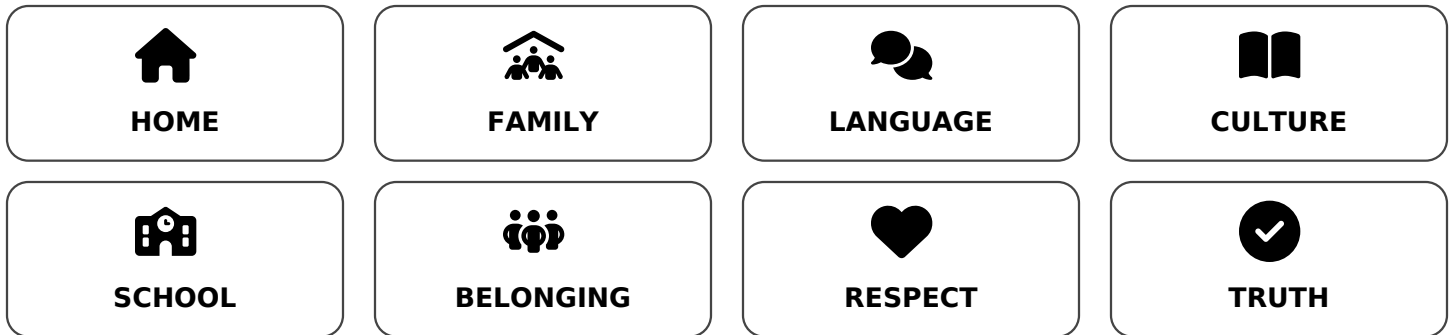

KEEP IT / CHANGE IT / ASK AGAIN

Support: read and demonstrate choices. Ask privately; do not assume abilities. Check access, safe boundaries and the stop signal before play. A sideline job must be freely chosen.

Listen. Learn. Respect.

Truth and Reconciliation • Use with our class sources.

Residential schools separated Indigenous children from families and harmed their languages and cultures. This was wrong. Indigenous peoples and cultures continue today.

Culture includes ways of living, languages, knowledge and traditions. These pictures are word clues; they do not show every meaning.

Match: which picture goes with each word?

A 

B 

C

HOME

Point to a picture, or write its letter in the box.

Trace or copy a word that matters.

HOME

TRUTH

RESPECT

How can we show respect as we learn?

I have something to say

Point to a message. Add words in a home language if useful.

Hello

My name is...

Can I join?

Can you help me?

I don't understand.

Please show me.

Please say it again.

My turn?

Your turn.

Yes / No

YES × NO

I need a break.

Bathroom

Finished

Thank you

One number. Two places.

Build it. Point to it. Trace it. Explain it.

Our classroom is Room 112. Today, explore 12 first.
Ten ones can be regrouped as one ten.

$$12 = 1 \text{ ten} + 2 \text{ ones}$$

TENS

one group of ten

1

ONES

two single ones

2

Which number matches the model? Point or circle.

12

21

2

Trace 12. Copy it, or build it with counters.

12

Go further: $112 = 1 \text{ hundred} + 1 \text{ ten} + 2 \text{ ones}$.

Point to the tens digit in 12 and 112. What is its value?
